

Microsoft Azure portal interface showing details for a virtual machine named "test-vm".

Navigation pane (left):

- Overview
- Monitoring
- Network
- Storage
- Compute
- Security
- Management
- Settings
- Help

Overview section:

- Name:** test-vm
- Resource group:** test-rg
- Location:** East US
- Subscription:** Microsoft Azure Subscription
- Created:** 10/10/2023
- OS type:** Linux

Properties section:

- Image:** Ubuntu Server 22.04 LTS
- Size:** Standard_DS1_v2
- Hardware profile:** Standard_DS1_v2
- Virtual network:** test-vnet
- Subnet:** test-subnet
- IP address:** 10.0.0.4
- Public IP:** test-ip

Monitoring section:

- Alerts:** 1
- Log analytics workspace:** test-log-analytics
- Log analytics agent:** Not installed

Network section:

- Network interface:** test-nic
- IP configuration:** test-ipconfig
- Public IP address:** test-ip
